WHAT IS THE KPE 2026 RANKING?

The **Kikuxo Poker Events 2026 Ranking** consolidates player performance across three flagship circuits and Special Events into a single, unified annual leaderboard.

Designed to reward consistency and excellence, this ranking system brings together the best players from the Vamos Poker Tour, Gladiator Series, and European Poker Masters.

How It Works

GPI-Based Scoring

Each eligible tournament awards points calculated using the Global Poker Index .

Festival Accumulation

Each festival accumulates the total points earned in all its valid scoring events.

Your final ranking is based on your best 15 festivals with the Special Event substitutions.

SPECIAL EVENTS

PURPOSE

Special Events are designed as strategic opportunities for players to improve their annual standing.

They serve specifically to **replace festivals with 0 points** in your top 15 count, ensuring one bad run doesn't ruin your season.

ELIGIBLE EVENTS

- **Grand Opening Portomaso**
1K Mystery Bounty + 2K MPF
- **Vamos Low Cost 2026**
Main Event + High Roller
- **Future Announcements**
Other Special Festivals TBC

KEY RULES

- **Official Designation**
Only counts if officially announced by KPE organization.
- **Substitution Only**
Used strictly to replace a festival.
- **No Double Dipping**
Cannot be added on top of a full 15-festival score unless replacing a lower score of 0.

SCORING SYSTEM & GPI

The KPE 2026 Ranking utilizes the prestigious **Global Poker Index (GPI)** methodology to ensure a fair, transparent, and internationally recognized scoring system.

This standardized formula guarantees that player performance is evaluated consistently across all brand events, weighing factors like field size and buy-in levels accurately.

Scoring Mechanics

Tournament Calculation

Points are applied to each eligible tournament based on the GPI formula.

Festival Accumulation

Points are cumulative per stop. A player's "Festival Score" is the sum of points earned in all valid scoring tournaments.

Season Ranking

The final annual ranking is calculated by summing a player's **Best 15 Festivals** (including substituted Special Events).

ELIGIBILITY NOTICE: If a player does not meet all the requirements above, they will not be eligible to win the ranking prize, even if they appear listed in the standings for informational purposes.

SPECIAL EVENTS SUBSTITUTION

HOW IT WORKS

Substitution is a safety net for players who have a bad run.

- **The Trigger**
If you score **0 points** at an official festival on the main calendar.
- **The Replacement**
You may substitute that 0-point result with a score from a valid Special Event.

CONDITIONS

- **Official Status Required**
Only officially announced Special Events are eligible for substitution.
- **Completion of 15**
Substitutions serve to complete your "Best 15" festivals tally by filling gaps left by 0-point performances.
- **Non-Additive**
You cannot simply "add" an event; you must be replacing a null score.

SCENARIO

Situation: A player participates in many festivals but fails to cash in two of them.

REAL WORLD EXAMPLE

- ❌ **2 VPT Festivals:** 0 Points
- ✅ **2 VPT Low Cost:** Points Earned

Result: The points from the 2 Low Cost festivals replace the 0-point scores.
